Commercial Division Broadcast E-Mail Guidelines

Revised August 2009

Welcome to CDX Mail, a service of the Commercial Division of the St. Louis Association of REALTORS®, which was created to support commercial real estate professionals. This service is provided under a contract with Commercial Information Exchange Inc. (CIE).

This system has been designed to help commercial real estate professionals find and market property more efficiently and to make their job easier. We hope that you will find this an invaluable resource. Carefully read this document. Please retain a copy of these guidelines for reference. Your use of the system constitutes that you have read these terms and agree to abide by them.

Please remember that this service was created for members and non-members to easily and quickly communicate exclusively about the haves/needs of commercial real estate property. Any emails or email replies containing advertisements of services other than the brokerage/development (have/need) of commercial real estate property is prohibited.

The Commercial Division operates an email service to help commercial real estate professionals market their listings and search for properties. This service provides the ability to e-mail hundreds of commercial brokers with a few clicks of a button.

If you choose to participate, this system will work with your current email system. We presume that you know the basics of your own email system. Once we have received your application, your email address will be added to the CDX Email Service. Only members of the Commercial Division of the St. Louis Association of REALTORS® have the ability to both send and receive messages. Non-members have been given the ability to receive member messages but not to originate them. If you know of other commercial brokers who might like to join the CDX Email Service, send us their address. If you have any questions about our system, please email info@stlcie.com.

COMMERCIAL DIVISION EMAIL SYSTEM GUIDELINES:

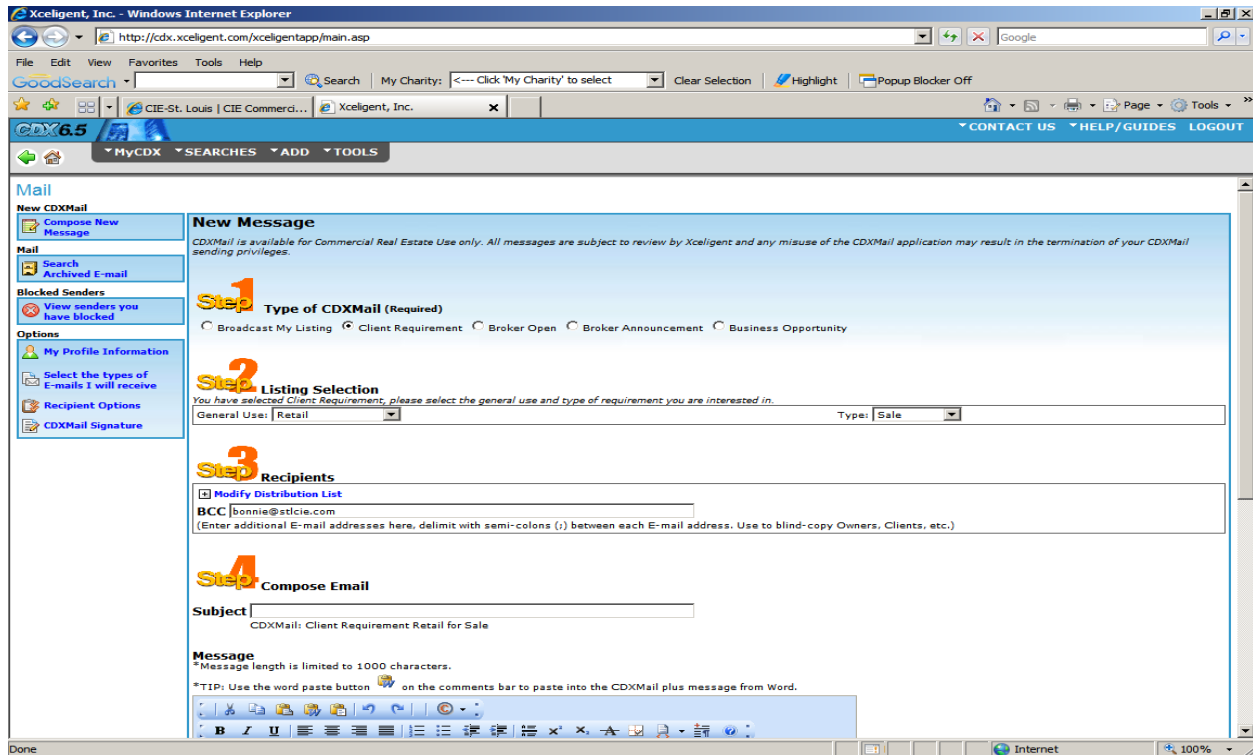

1. Any Email sent as "BROADCAST MY EMAIL", must have a valid listing agreement.
2. **Frequency:** Emails are limited to five (5) per day, per member and should NOT be repeated within a thirty (30) day time frame unless a pertinent revision has occurred, in that case, "REVISION" should be entered in the subject line and the revision noted in the body of the message.
 - If you have a listing that is co-listed with more than one Broker, the listing should be sent out with all Brokers listed on the email and only be sent out once in a thirty (30) day time frame.
 - If you have a building/land with multiple suites/parcels, include all information in one email. This helps to cut down on the number of emails sent through the system.
 - Too many e-mails on the same property may result in your e-mails being "blocked" by members.
 - **Subject line:** The system will fill in the subject line with the General Use and transaction type based on the selections you make. Available Space required and Property Location will need to be added by the member.
 - Example:
 - CDXMail: Retail, Lease, Wentzville, MO 10,000 SF
 - CDXMail: Multi-Unit Housing, Sale, St. Louis, MO, 8 units
 - CDXMail: Need, Office, Sale, 3,000-4,000 SF, West County
 - CDXMail: Need Land, Sale, 20-25 acres, St. Charles, REVISED (Revision must be noted in the body of the message)
3. If possible, include the property address in your CDX emails. This helps members reading your email determine if the property will work for their client.
4. **Attachments:** CIE members may attach up to two documents to their email. Attachment size cannot exceed 5meg.

CIE members may attach a CIE Brochure and include a web page. Non-CIE members are limited to sending out text messages.

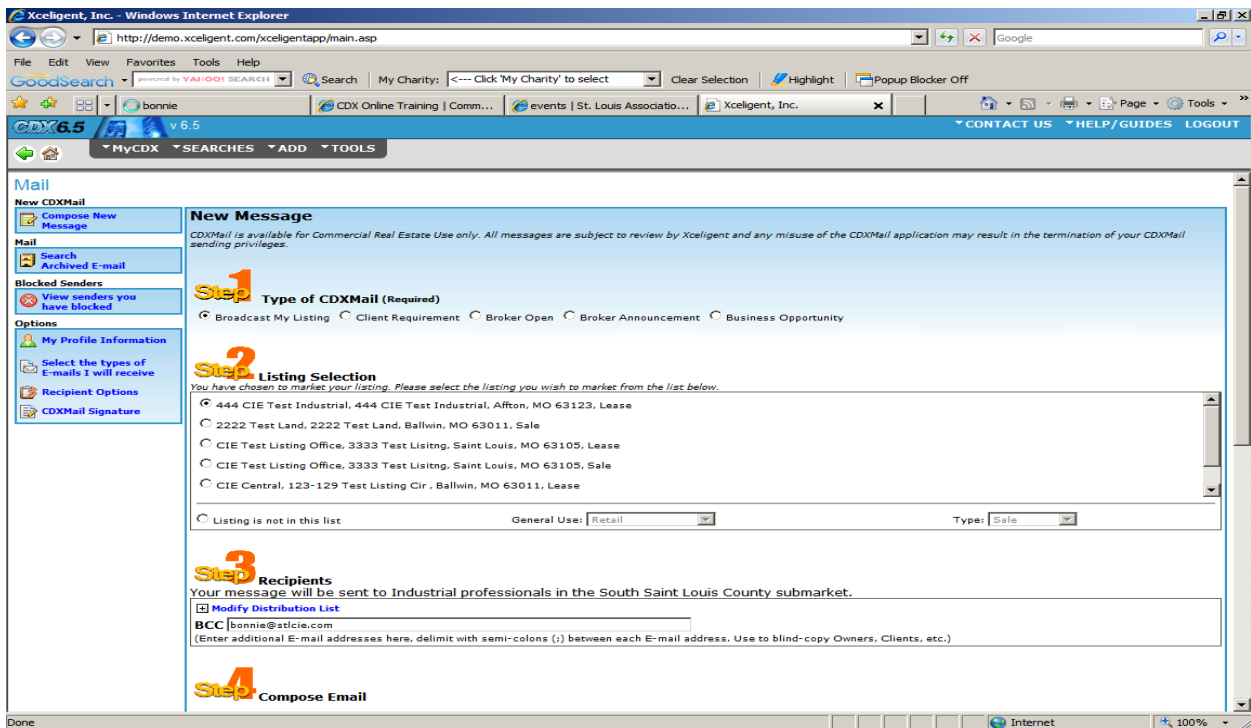

5. **Virus Protection:** It is your responsibility to have and regularly update Virus Protection software on your computer. Failure to do so could result in expulsion from the CDX Email Service.
6. This is a “moderated” list and all messages are reviewed before broadcast.
7. **Format:** Provide additional property description information in the body of your message.
To reply to a message, you should hit your Reply feature (or similar command on your Email manager).
Please be considerate of other system members and keep your posts as concise as possible. Paragraph breaks make the message easier to read. TOO MANY 'CAPS' IS CONSIDERED SHOUTING.
8. **Broker Open:** provide information on upcoming commercial property tours and broker lunch meetings at property locations.
To be sent only once prior to the event, including all of the host information, location, property type, and any promotions available to attending brokers, along with contact information for additional questions.
9. **Broker Announcements:** Provide information of Broker relocations or announcements such as office changes of address, phone number, announcing new broker joining office, broker designees, etc.
Not to be used for “broker recruiting” or “position available” notices. All Broker Announcements are subject to the approval of the Commercial Division. Members often set up folders in their email managers to store messages by topic. Remember also that most Email managers can filter messages (according to Sender or Subject) so they go directly into folders rather than the regular 'Inbox.'
10. Do not submit messages that do not relate to marketing your listings and searching for properties. Remember to keep the signature short and your language professional and to the point rather than attempt humor or catchy phrases.
11. Because of the variety of Internet providers and equipment available, we cannot guarantee that every provider can fully access all messages on the system. Some may employ filters that screen out your ability to receive these emails.
12. For extended searches of property needs consider the CIE Database System. Contact info@stlcie.com for details.
13. If you have questions about the operation of the mailing list, please contact CIE (system operator) at info@stlcie.com.
